TRAINING DATES: July 18 - 22, 2011 (9:00 a.m. - 4:00 p.m.)

LOCATION: The Phoenix Companies, Inc.

One American Row, Hartford

COST: FREE - Space is Limited!

HOW TO APPLY: www.connecticutIFS.com

Application must be postmarked by May 27, 2011

“An accurate and fun glimpse into the life of an actuary with a good balance between math instruction, access to real-life actuaries and applications.”

- Bobby B.

Program Goals: Introduce students to the actuarial profession in a fun and interactive one-week program. Prepare students for the first actuarial exam (i.e. Course P) of the *Society for Actuaries* and *Casualty Actuarial Society*.

“Actuarial Boot Camp made me absolutely sure I wanted to become an actuary.” - Brian B.

Featuring:

- Sessions focused on writing skills, negotiation strategies, and professional-based ethics
- Opportunity to meet actuaries working in insurance (life, property and casualty and health), finance, government, risk assessment and consulting
- Guest speakers from companies like Aetna, Hartford Life, Prudential and Travelers
- Guidance on internships, employment and career advancement

Includes:

- Study notes for Course P, an exam-approved calculator and a career planner
- Lunch will be provided

“[For once] being a math nerd was the coolest thing in the world!”

- Courtney L.

WHAT IS AN ACTUARY?

A business leader and professional who interprets data to determine the probability of accidents, sickness, natural disasters and death and uses mathematics and statistics to develop programs to reduce the impact of those events.
