

Connecticut's
Insurance and Financial
Services sector
is the fourth largest
in the State.

Connecticut has the
3rd highest percentage
of employer-provided
health insurance
in the U.S. (2008)

One new job in the
insurance industry results
in an additional 1.35 jobs
in the Connecticut economy.
(May 2007)

Did *you* know? Your legislator should.

Legislation pertinent to the insurance and financial services (IFS) industry is now under consideration.

Over 140,000 Connecticut employees work in IFS. Their expertise, technology, products and services touch the lives of individuals in Connecticut and resonate worldwide.

Tell your legislator to value the industry and its employees, and to vote accordingly.

Find out who represents your interests at
www.connecticutIFS.com

Connecticut's
health care plans were the
2nd highest rated
in the U.S. for quality, access
and customer satisfaction.
(2008)

State premium
tax revenues from the
insurance industry
exceeded \$230 million
in FY 2006-07.

The Insurance and
Financial Services
sector accounts for 16.5%
of Connecticut's
Gross State Product.
