

ACTUARIAL

BOOT CAMP

TEACHER SUBMISSION FORM | 2023 ACTUARIAL BOOT CAMP

WHAT IS ACTUARIAL BOOT CAMP?

Actuarial Boot Camp is an intensive and interactive one-week program for high school students and college freshmen that explores the basics of the actuarial profession and preps students to sit for one of the first actuarial exams. The camp features in-depth math instruction and highlights effective negotiation skills, assessment and risk, case studies and ethics, and provides career guidance and interaction with local practicing actuaries.

Connecticut Insurance and Financial Services (CT IFS) will sponsor its 15th annual session of Actuarial Boot Camp in July 2023, and we are thrilled that **The Hartford** will host this year's program.

WHAT IS THE TEACHER SUBMISSION FORM?

Actuarial Boot Camp is a competitive program and has certain prerequisite criteria for all applicants. This signed document confirms an applicant is currently taking or has completed Calculus BC or AB, Honors Calculus (including Integration), or Pre-Calculus, and provides additional detail for the Selection Committee.
